

Learn To Solder

At Bloomington Hamfest 2016

AC8AI Is going to be setting up Soldering stations and bringing kits to sell and help you learn to solder! We will have a variety of kits for all learning levels.

Basic

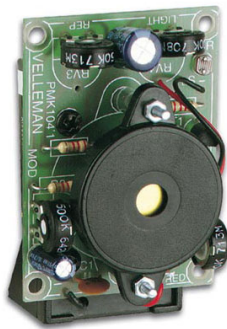

Our Basic flashlight kit is easy for people to learn to solder and is cool to have to play with afterwards. \$6.00

If you're too young or just don't want to try soldering just yet we also have DC motor kits! \$10.00

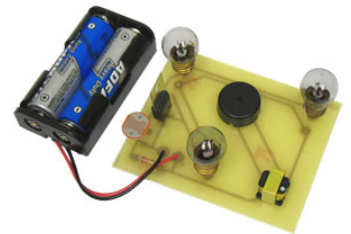

Intermediate

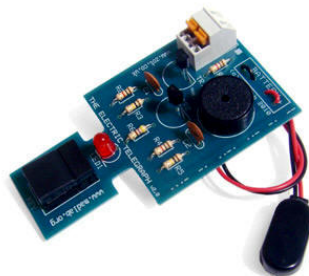

This electronic cricket kit can annoy your siblings and bring you great joy! it chirps when the lights go out. \$20.00

The Cosmic popper kit makes explosions of light at night. This is a fun kit but a little harder than our basics. \$10.00

Advanced

This electric Telegraph kit is great for practicing to get out and start transmitting morse code! \$20.00

This little radio can crank up the greats of AM Radio. It takes a bit more experience but is a cool kit. \$20.00

Also Available:

Moisture kit LEDs indicate moisture in Soil.

\$6.00 Basic

Crystal Radio Kit No batteries required and no soldering!

\$20.00 Basic
